

Congratulatory Note

It is indeed an honor for the Central Bank of Sri Lanka (CBSL) and, particularly for me, to extend my warm greetings to the SEACEN Centre on the occasion of the 25th Anniversary of the SEACEN Centre.

I am pleased to place on record the fact that, being one of the pioneer members of the SEACEN, the CBSL immensely benefited from research and training programmes organized by the SEACEN Centre on policy and operational aspects of central banking, monetary policy, exchange rate policy, macro economic policy and supervisory and regulatory aspects relating to financial institutions. I have no doubt, that all member banks indeed are proud to be a member of the SEACEN family and will assiduously endeavor to achieve our vision “to be a premier regional training centre for central banks in the Asia-Pacific region”.

Thank you
