PUBLICATIONS**

SEACEN PUBLICATIONS

The following lists the completed research reports and papers published by SEACEN for the last two years. While all publications are downloadable for free from the website, purchase orders for hard copies can be made via the SEACEN website.

I. RESEARCH PUBLICATIONS

Forthcoming Research Studies:

- ◆ Building on the Counter-Cyclical Buffer Consensus: Asian Empirical Test
- ◆ Advancing Inclusive Financial System in the Next Decade

2014 Publications:

- ◆ Analytical Framework in Assessing Systemic Financial Market Infrastructure
- ◆ Mortgage Finance and Consumer Credit: Implications on Financial Stability
- ◆ Proceedings of the SEACEN High Level Seminar on “Integrating Monetary Policies with Macprudential Framework”

II. SEACEN FINANCIAL STABILITY JOURNAL

The SEACEN Centre published the inaugural issue of the SEACEN Financial Stability Journal (“Journal” or “SFSJ”) on 20 October 2013, a major new strategic initiative approved by the SEACEN Board of Governors.

The Journal has a unique mandate – it is intended to advance thought leadership and collaboration on financial stability matters among SEACEN member central banks, contextualised to the Asia-Pacific region. While there are numerous high-quality research journals devoted to economics and monetary policy, very few publications focus on practical implementation issues related to promoting financial stability and systemic risk management from a central bank/monetary authority perspective.

Central banks' efforts to promote financial stability will continue to evolve. The Journal will provide central bankers/monetary authorities, financial institutions regulators and policymakers with valuable insights and practical, actionable information on crucial issues pertaining to financial stability to assist this evolution.

The Journal is published on-line. Subscriptions are available to the public at no cost through the following link - <http://www.seacen.org/register.php>.

The Journal's Editorial Board will accept articles that advance thought leadership in financial stability matters, from both expert staff at SEACEN member central banks as well as from non-SEACEN member subject matter experts. Article submission guidelines are available through the link http://www.seacen.org/file/file/SFSJ_Journal/Article%20Submission%20Guidelines.htm

III. SEACEN Working Paper Series

- (WP1/2014) Stock Market Performance: Foretelling and Crisis Signaling?
