LEADERSHIP WEBINAR:
Leading with Emotional Capital

21 AUGUST 2020
10:00 A.M. (KL/SINGAPORE TIME)
ABOUT THE WEBINAR

Research shows convincingly that EQ is more important than IQ in almost every role and many times more important in leadership roles. This finding is accentuated as we move from the control philosophy of the industrial age to an empowering release philosophy of the knowledge worker age.
~ Stephen Covey, leadership authority and author of several bestsellers

This webinar is aimed at reinforcing the enduring message that emotional intelligence is a powerful component of effective leadership. At its core, emotional intelligence is a set of skills that helps us to recognise, understand and manage our own emotions as well as recognise, understand and influence the emotions of others. To be led by Mr. Peter Webb, a leadership development practitioner and coach, the session will enable you to:
• Gain an awareness of how your behaviour impacts others; and
• Learn how to take charge of your emotional energy in leading others for better results.

The webinar is open to anyone interested to deepen their understanding of the building blocks of emotional capital to lead progress. It will be hosted and moderated by Ms. Geraldine Joseph, the SEACEN Centre Senior Analyst for the Leadership and Governance knowledge areas.
